

## IACE Survey of Membership: Training Topics

The purpose of the Illinois Association of Code Enforcement is to study and advance the science and practice of code enforcement through training and education leading to certification, to further the interests of the profession, and to promote fellowship and understanding among its members. As such, the Board wants to ensure that the training and education it arranges and/or provides meets members' needs. Please complete this survey regarding our quarterly training topics.

On behalf of the Board, thank you for participating. Your feedback is very important.

Marc Mylott, AICP  
President  
Illinois Association of Code Enforcement
